# NOISE CANCELING HEADPHONES

**NOISE CANCELING**

## ACTIVE NOISE CANCELING

TDK Life on Record Noise Canceling Headphones reduce unwanted ambient sound to give you a better and more relaxed listening experience. Essentially, active noise reduction works by using a microphone on the outside of the headphone to pick up external ambient noise. This is then sent to a digital processor which generates an antiphase wave with the opposite polarity of the sound wave coming through the microphone. As a result, the external ambient noise is reduced within the enclosed listening space.

TDK Life on Record Noise Canceling Headphones deliver effective noise reduction in such environments as aircraft, trains, cars, buses and other public places where excessive ambient noise is present. The active noise canceling feature works with or without music playing through the headphones.

TDK Life on Record Noise Canceling Headphones feature a padded headband design and over-the ear drivers for absolute comfort. A full-range frequency response of 20Hz to 20 kHz provides deep bass, clear mids and sparkling highs. The included aeroplane adaptor enables connection to aircraft entertainment systems.

## FEATURES & BENEFITS

Powerful active noise canceling technology
Ideal for travel on aircraft, trains or buses
Airplane adaptor included
Soft earpads and swivel ear cups
Carry pouch for storage and protection
Includes 6.3 stereo gold-plated adaptor

## TECHNICAL SPECIFICATIONS

Plug Type: 6.5 mm gold-plated
Driver Diameter: 40 mm
Frequency Response: 20 - 20,000 Hz
Sensitivity: 96dB ±3dB
Impedance: 32 ohms ±10%
Battery: 1xAAA, not included (Battery life up to 32 hrs)
Active Noise Reduction: 12 dB at 300 Hz
Cord Length: 1.2 m with in-line volume control
Weight: 0.51 kg

## IN THE BOX

NC150 Headphones
6.3 mm adapter
Storage case/pouch
Dual plug adapter for use on aeroplanes
